

Amendments

In accordance with 37 CFR §1.121, please amend the above-identified application as set forth below.

Amendments to the Specification:

Please make change to paragraph 7 page 2 of the specification:

[0007] To achieve this object, the invention ~~in combination with the introductory part of patent claim 1 is characterised in that~~ is a headlamp for vehicles with at least one planar luminous panel having a plurality of luminous element chips with an optical element arranged in the beam path of the light beam emitted by the luminous panel and with the luminous-element chips of the luminous panel are being arranged in a common recess and in that the recess on one side facing in the direction of light emission has an edge in such a way in a spatial arrangement to the luminous-element chips that a predetermined luminance gradient in a luminance distribution of the headlamp is formed in the region of the edges.
